### 2011 – Holiday Inspiration – Day 3

Give your heart away! A crystal heart is easy to make with Right Angle Weave. Two rows of four units, then two rows of two units and done! Turn it into a key or scissor fob, attach it to adorn the top of a special gift wrap, or use larger crystals for a paperweight that shows your *heart* every day. Other ideas for fob on this “Fob”-ulous display in the shop for you to see.

All you need for the hearts: 32 - 3mm or 4mm bicone crystals, Fireline, & findings of your choice to attach.

Coffee, Tea or ?? Stitch a few Mug Buddies to keep your drink warm and your hand cool. A piece of wool, a bit of floss or pearl cotton, and maybe even some beads to make one-of-a-kind, handmade gifts that will be used every day. Or around here...several times a day? Stitching ideas with and without beads can be found in books like the titles shown here. Just like chips, can't have just one...

This fall-themed Inspiration Board is in the shop for you to see, up close and personal.
